Just FYI - See below.

Minor requested to know, "...a full explanation as to how and when the recording was lost."

My Supervisor replied to him below as we did not make the recording or maintain it on a CSLB database/cloud-based system.

Also, I did not communicate with his attorney, Sonoma DA did.

Hi Jessie

Amanda advised my attorney it was lost. I was told by her I could have a copy of if I requested it from her back in 2022.

I will take this email as confirmation that it was lost

Thank you

Mr. Minor,

Thank you for your voicemail regarding the recording. Please note that the matter was handled by the Napa County District Attorney's Office, not the Contractors State License Board. As such, we are not in a position to respond or provide information regarding this issue.

Hi Jessie

I just left a voicemail.

I am still looking for a full explanation as to how and when the recording was lost please.

If no one knows, can you still reply with that answer at least before July 11th, 2025 4:00 PST please?

Thank you

Zach Minor

Hi Jessie,

I had a recorded meeting with Amanda Martinez at the Napa District Attorney's Office on September 28, 2022. During that meeting, I provided documents—such as power of attorney records—showing that I had no control over the company's financials from August 2019 onward, as those were handled by a private equity firm. Although all of

these documents did not make it into the Sonoma County report, they were discussed during the meeting and captured on the recording.

At the time, I was told I could request and receive a copy of the recording. However, when I made a formal request this spring—believing the recording contained exonerating information—Amanda contacted my attorney and stated that the tape had been lost.

Being forced to enter a plea without access to this key evidence has been deeply upsetting, and I would still like a full explanation as to how and when the recording was lost.

Thank you,

Zach Minor
